I am writing to inform to whom it may concern, that XM Satellite Radio provides a huge benefit and safety to myself and coworkers. We are Truck drivers and it helps us greatly to know what the incoming weather is to avoid traffic mishaps. It also keeps us informed on the current events, as we travel through-out the states. We are unable to hold an AM or FM station for very long or if at all out in the rural areas. Please let XM continue its valuable service. Thanks from R+L Carriers.
